

Our practices contributing to the quality developments in times of COVID-19.

Msc Olivera Todorović

Assistant director

Institute for Education of Eprovement

- COVID-19 has led to a change in teaching
- The Ministry of Education, Science and Technology immediately took certain steps
- Teachers were the main actors and they had the greatest responsibility

Bearing in mind that the demonstrated innovation, the effort of teachers in the changed conditions deserves wide social recognition,
from April 22 to May 31, the competition *Magic is in the hands of teachers* was announced.

The competition was **organized** by:
NALED and the Organization for Career Development and Youth
Entrepreneurship "Connecting",
in cooperation with the Ministry of Education, Science and
Technological Development,
Institute for Education of Eprovement
and
Republican Secretariat for Public Policy within the Public-Private
Dialogue for Development Project supported by the United
States Agency for International Development (USAID).

They were **the subject** of the competition examples of distance learning that apply to all grades of primary and secondary schools, as well as to all subjects that are a part of the school curriculum.

The goals of the competition are:

- promotion of innovative learning methods and project teaching
- encouraging creative connections between teachers and students
- improving teaching results
- promotion of the importance and reputation of teachers in society
- promotion of education and science and new ways of communication and technology
- creating a database of examples of good practice

The right to participate had all primary and secondary school teachers, as well as school psychologists and pedagogists, who participated at the designing and implementation of distance teaching.

Criteria:

I Innovation in the methodological approach (for example: using the project approach to teaching and other innovative methods)

II Encouraging student for participation and for interactivity of approaches

III Adaptation to the age of students

IV Connection with other teaching units

V Innovative use of modern technologies for the needs of distance learning and learning
